20 TON 1-PILLAR SWAGER TALURIT™

TALURIT™ – here with a small Swager with high capacity

The 20-ton Swager has a single pillar open throat design and the built in pump is very efficient. Less than 30 strokes close the dies!

Due to lightweight and easy operation it is suitable to use in the field. The pump handle is also used as a carrying handle in its locked position.

In a single stage swage T-ferrules up to No. 6,5 can be swaged. Multi stage swaging makes it possible to swage T-ferrules up to No. 9.
 Note! All our dies are manufactured from hardened and tempered die steel for long life and durability.

Operating the pump: Close the relief valve on the pump and start pumping the handle to close the dies. Open the relief valve to open the dies.

TECHNICAL DATA

Art No. P 0020T 1P

Max. swaging force (kN)	200	Type of die	A
Max fluid pressure (bar) approx.	700	Max. die length (mm)	39
Length of stroke (mm)	12	Dimensions L x W x H (mm)	400 x 150 x 160
Capacity		Weight (kg)	18,7
- Single stage (T)	6,5		
- Multi stage (T/UM)	9/10
